Please discuss with your veterinarian.

SPAY

✂ Can be done when the cat is at least 5 months of age

NEUTER

✂ Can be done when the cat is at least 5 months of age

MICROCHIP

A rice-sized chip that is injected under the skin between the shoulder blades and gives your pet permanent identification should he/she ever become lost. Fee includes national registration.

PET INSURANCE

There are a number of companies that offer pet health insurance. Prior to purchasing, do some research to find the best plan for you and your pet. Remember, it is best to have the insurance in place, at an early age, prior to an accident or illness.
